

Assistive Technology

Assistive Technology benefits children who need specialized equipment or alternative means of engaging in communication, mobility, or play. Assistive technology is any item or equipment used to increase, maintain, or improve functional capabilities of individuals with disabilities.

Our trained staff can help you in the selection, acquisition, and use of appropriate assistive devices. Call **Pediatric Therapy Partners** for a consultation to determine which technology is best for you.

Examples of **Assistive Technology** are:

- o Adaptive mobility equipment
- o Augmented communication devices
- o Hearing aids and amplification devices
- o Adapted computers and software for visual or physical impairments
- o Adapted bathroom equipment
- o Adaptive feeding equipment
- o Switches to operate toys, lights, and appliances

Pediatric Therapy Partners. Always reaching further - to help your child laugh, love, and live life to its fullest.
