

Speech - Language Pathology

Pediatric **Speech-Language Pathologists** work with children to improve feeding, verbal communication, articulation, and other communication skills which are needed for a child to participate in everyday activities.

Specialty evaluations and interventions provided for the following areas:

- o Articulation and phonological disorders (problems making sounds correctly)
- o Intelligibility issues (not speaking clearly)
- o Oral motor skills
- o Swallowing and feeding disorders
- o Fluency disorders (stuttering)
- o Hearing disorders
- o Language disorders
- o Cognitive deficits
- o Voice deficits (hoarseness, vocal nodules, polyps)
- o Autism spectrum disorders
- o Auditory processing disorders
- o Cochlear implants
- o Reading delays
